Building a worldwide community of Prosthetics and Orthotics professionals for the benefit of their patients

ISPO is a global multidisciplinary organization aiming to improve the quality of life for persons who may benefit from prosthetic, orthotic, mobility and assistive devices. Its members are prosthetists and orthotists, prosthetic and orthotic (P&O) technicians, orthopedic surgeons, rehabilitation doctors, physiotherapists, occupational therapists, orthopedic shoemakers, nurses and biomechanical/rehabilitation engineers.

For 40 years, ISPO – primarily through its Member Societies (MS) – has provided an effective platform for the exchange and communication on all aspects of the science and practice associated with the provision of prosthetic and orthotic care, rehabilitation engineering and related areas. The Society now gathers about 3,300 members in over 100 countries.

Inclusion, Participation and Empowerment

ISPO and its members contribute to a world where all persons have equal opportunity for full participation in society.

From supporting or organizing high level conferences to publishing latest scientific and clinical research, promoting standards of training and care or undertaking capacity building programs, ISPO aspires to offer to all people around the globe the level of care they deserve to improve their quality of life.

In addition, ISPO specifically supports low-resourced settings around the world by empowering Prosthetics and Orthotics professionals as well as local rehabilitation workers via community based rehabilitation (CBR) strategies. Activities include: training to local Prosthetics and Orthotics and rehabilitation personnel, support to persons with disabilities and the wider community regarding treatment, preparation for the fitting and use of Prosthetics and Orthotics devices, reintegration into society.

ISPO is a non profit organization

- In official relations with the World Health Organisation (WHO)
- In special collaborative status with the Economic and Social Council of the United Nations (ECOSOC)
- In special collaborative status with the US Agency for International Development (USAID)
- In special collaborative status with many international NGOs including the International Committee of the Red Cross (ICRC)
Ensuring quality care and education of professionals for the benefit of patients

Fostering exchange, high-quality knowledge and networking

Working towards harmonization of Prosthetics and Orthotics training worldwide

Through international collaboration and consensus building, ISPO develops and promotes education and training curricula for prosthetists and orthotists (ISPO Category I professionals), as well as orthopaedic technologists (ISPO Category II professionals). Curricula for other training levels may be developed for professionals working in curricula for other training levels may be developed for professionals working in low-resourced settings.

ISPO also provides recognition for Category I and II levels to educational programs and associated professional pathways offered by schools and training institutions around the world.

ISPO further compiles and reviews practice standards for Prosthetics and Orthotics professionals through education symposia, curriculum updating, material and product evaluation and classification.

Through its Member Societies, ISPO gathers global leaders and experts from all related disciplines representing the most advanced and interdisciplinary knowledge in Prosthetics and Orthotics science and practice. In an effort to make this valuable knowledge and experience available to the Prosthetics and Orthotics community at large, ISPO regularly organizes world congresses and other educational activities in all parts of the world.

In addition, ISPO initiates consensus conferences, short courses, workshops and consultative meetings to:
- foster debate, exchange of information and cooperation
- advance research and evidence-based practice
- facilitate innovative and appropriate technology development

ISPO further disseminates knowledge through publications.
Join us

Join one of our ISPO Member Societies or ISPO International (for countries without a MS) and:
• take advantage of immediate access to the worldwide ISPO community network
• enjoy exposure to highest level expertise and keep abreast of latest developments in the field
• contribute to helping those in need by supporting ISPO’s various training activities in developing countries
• benefit from or promote quality training thanks to tailored courses, workshops and conferences
• contribute to advancing research, clinical practice and technical development by participating in debates and congresses organized around the globe

Membership benefits

In addition to benefits provided by your Member Society:
• Benefit from a free subscription to Prosthetics and Orthotics International (POI), one of the leading international scientific publications in the field of prosthetics and orthotics
• Get reduced registration fees at ISPO events: ISPO world congress, national congresses, workshops, seminars and other professional activities
• Receive ISPO’s bi-monthly eUpdates and quarterly newsletter
• Gain access to ISPO exclusive online services
• Make use of voting rights and eligibility to serve on ISPO committees and taskforces

How to apply for membership?

Please contact your Member Society or fill in the online application form on www.ispoint.org
