

INTERNATIONAL
SOCIETY FOR PROSTHETICS
AND ORTHOTICS

Join **ISPO's Industry Advisory Group (IAG)**

About ISPO

The International Society for Prosthetics and Orthotics (ISPO) is a multidisciplinary non-governmental organisation that promotes access to appropriate and equitable rehabilitation, mobility devices (prostheses, orthoses, wheelchairs) and other assistive technology services to improve the quality of life for people with reduced mobility.

ISPO membership includes those involved in the provision of mobility devices, rehabilitation, and related areas such as professionals (prosthetists-orthotists, physical therapists, occupational therapists, surgeons, physicians, engineers, researchers, etc.) along with the industry and users of assistive technology.

About ISPO's Industry Advisory Group (IAG)

The ISPO IAG brings together the expertise of the industry partners that allows for strategic dialogue, the joint exploration of common challenges and seeks responding solutions in the field of assistive technology. The ISPO IAG also explores ways for ISPO to collaborate with industry partners worldwide, ultimately to the benefit of assistive technology users globally.

Why should your company join the IAG?

Members of the IAG benefit from:

- ➔ Face-to-face meetings with ISPO leadership
- ➔ Meetings with special invited guests such as leading representatives of International Organizations (fe. World Health Organization (WHO))
- ➔ Conference call meetings with peers and the ISPO leadership on sector relevant topics
- ➔ Exposure on the ISPO website
- ➔ The possibility of proposing, on the ISPOLearn platform courses/modules that enhance the skills and knowledge of professionals providing services
- ➔ The possibility of joining ISPO working groups that focus on outcome measures and core data sets.

ProsFit has found membership of the ISPO Industry Advisory Group (IAG) to be constructive. In line with its stated objectives, the ISPO IAG really does provide a forum for dialogue, information exchange, and the joint exploration of shared challenges in the field of assistive technology, with the objective to benefit users across the world.

Alan Hutchison, CEO, ProsFit

The work of the ISPO IAG promotes an enabling environment for innovation to improve mobility products and services.

Dr Berit Hamer, Director Governmental Affairs & International Cooperation, Ottobock

Who can join the IAG?

The ISPO IAG is open to companies active in the field of rehabilitation, mobility devices, or other assistive technology, either manufacturing devices and/or providing services.

Current members of the IAG

How to join?

Contact ispo@ispoint.org to receive the membership application form and detailed terms of reference of the IAG.
