INTERNATIONAL
SOCIETY FOR PROSTHETICS
AND ORTHOTICS

...moving beyond physical disability

Tomorrow is the International Day of Persons with Disabilities.

This year's theme is:

"Fighting for Rights in the Post-COVID Era"

As we emerge through 18 months of the pandemic, ISPO recognises the needs of individuals with mobility challenges have to be highlighted more than ever.

ISPO continues to respond by supporting the multidisciplinary professionals working in the field of prosthetics, orthotics, wheelchairs and other assistive devices that enable people to access their right to mobility by:

- Promoting multidisciplinary practice;
- Facilitating professional education to provide quality care;
- Promoting research and evidence-based practice;
- Facilitating innovative and appropriate technology;
- Fostering international collaboration and consensus;
- Facilitating knowledge exchange.

Join us on the celebration of **IDPD 2021** by promoting it to your network and community.
